

# 2020 Census Data in the Preston Corridor

The first two maps represent the Census Tracts within the Preston Corridor in 2010 and 2020. In the 2010 Census there were 38 Census Tracts. Tracts 35, 59, 71, 94, and 119.05 all split into two tracts which resulted in the 2020 Tracts for the Preston Corridor having 43 Tracts. The next 5 maps show demographics and housing data from the 2020 Census at the block level. Each map is split into two with the left map showing the northern half of the corridor and the right map showing the southern half of the corridor. In each of the maps the Watterson Expressway marks the north south divide of the corridor.
